EXPERIENCE

Frontend Developer

2024 – Present

Vintedge Sdn Bhd

- Engineered and maintained responsive, high-fidelity web interfaces, accurately translating Figma, UI, and UX specifications into production-ready code.
- Ensured cross-browser compatibility and responsive design integrity by diligently resolving complex layout, and styling issues.
- Optimised website performance, resulting in measurable improvements in speed and Google Lighthouse scores (e.g. speed tests, user experience, and overall performance). 20% increase in performance score).
- Proposed and implemented design and user experience (UX) enhancements to improve usability and align interfaces directly with specific client business objectives.
- Handle ad-hoc tasks such as content updates and ticketing for client websites (e.g. updating articles, events, and more).

Software Developer

2023 - 2024

Current Tech Industries

- Implement and maintain web applications using React and Laravel, creating responsive and user-friendly interfaces that ensure optimal performance and a great user experience across a range of devices and browsers.
- Customize and remodel existing templates to improve functionality and aesthetic appeal while adhering to client demands.
- Developed and implemented software solutions to meet client requirements, enhancing system functionality and user satisfaction.
- Collaborated across technical and design teams to produce innovative software applications.

ACHIEVEMENTS

- Google Analytics Certification
- Gemini for Google Workspace
- Adobe Professional Certification (2023)
- Chief of Exco Multimedia (Persada UTeM)
- Vice Director of Program (Sharing Multimedia Experience by Les Copaque)
- Dean's List for every semester (CGPA : 3.89)

RELEVANCE PROJECTS

IHH International Website | 2026

- **Description:** Implemented UI enhancements and frontend improvements for a live corporate healthcare website to improve usability and content clarity.
- **Role:** Led front-end UI implementation and supported UI/UX design through wireframing and design refinement. Collaborated closely with designers and backend developers to ensure accurate execution.
- **Technologies Used:** HTML, JavaScript, Bootstrap 5, Figma, Google Analytics.

Pantai Hospital Page | 2025

- **Description:** Enhancement and development of hospital web pages to improve usability, performance, and interactive user experience.
- **Role:** Resolved UI/UX issues, implemented new pages from Figma designs, and integrated animator-developed 3D models using React and Three.js/WebGL. Collaborated closely with UI/UX designers and backend developers to ensure accurate execution and feature delivery.
- **Technologies Used:** React, Three.js, WebGL, HTML, JavaScript, Bootstrap 5, Figma.
